

# Invitation to the Gulf of Finland Year 2014 event:

# WINOIL

## ” WINTER NAVIGATION RISKS AND OIL CONTINGENCY PLAN”

### March 26-27 in Kotka, Finland

***WINOIL project focuses on two main issues: 1) to update and develop the pollution combatting contingency plans of Russia and Finland related to Gulf of Finland waters, and 2) to carry out risk assessment of winter navigation with the understanding of proper risk control options.***

Finnish Environment Institute (SYKE) jointly with the WINOIL R&D Consortium has a honour to invite You to participate the International Seminar to be held in Kotka, March 26 at 13:00 – 17:00. Please see the programme attached.

WINOIL Organisers will arrange a Full-Scale Oil-in-Ice Mechanical Recovery Demonstration to be held next day also in Kotka, i.e. March 27 starting at 9:00 in Kantasatama, close to the Vellamo Maritime Museum.

Exercise fleet will demonstrate oil recovery facilities in ice conditions. Open Door event for publicity is arranged between 13:00 – 15:00. Please read more:
