

Field Day info

Nordic and International Hydrometry Workshop 2026
Rovaniemi
25 September 2026

Suomen ympäristökeskus
Finlands miljöcentral
Finnish Environment Institute

Overview: From Arktikum to Sinettä

- Field sites are located 20 km North-West from Rovaniemi centre via Kittiläntie (Road 79)
- The sites are quite close to each other (550 m apart)
- ~10 km north from Arctic circle
- Bus transport:
 - Mini-bus heads towards Sinettä beach
 - Big bus heads first to Uula's mill, then to Sinettä beach
 - One of the buses leaves earlier towards Rovaniemi via the other site

Two locations in the River Sinettäjäjoki course

Little stream: Uula's mill

- 250 year old mill surroundings
 - Soup lunch
 - Roasted Jerusalem artichoke soup, sandwiches, coffee/tea and pulla
 - Toilet facilities
- Salt dilution
- Small scale surface velocimetry
- NivuFlowstick, Flowtracker etc.
- Handheld radar
- Streamgauging ruler
- Others?

River crossing is only possible via the small wood bridge with hand rail. Do not use other wooden structures in the river: they can be very slippery!

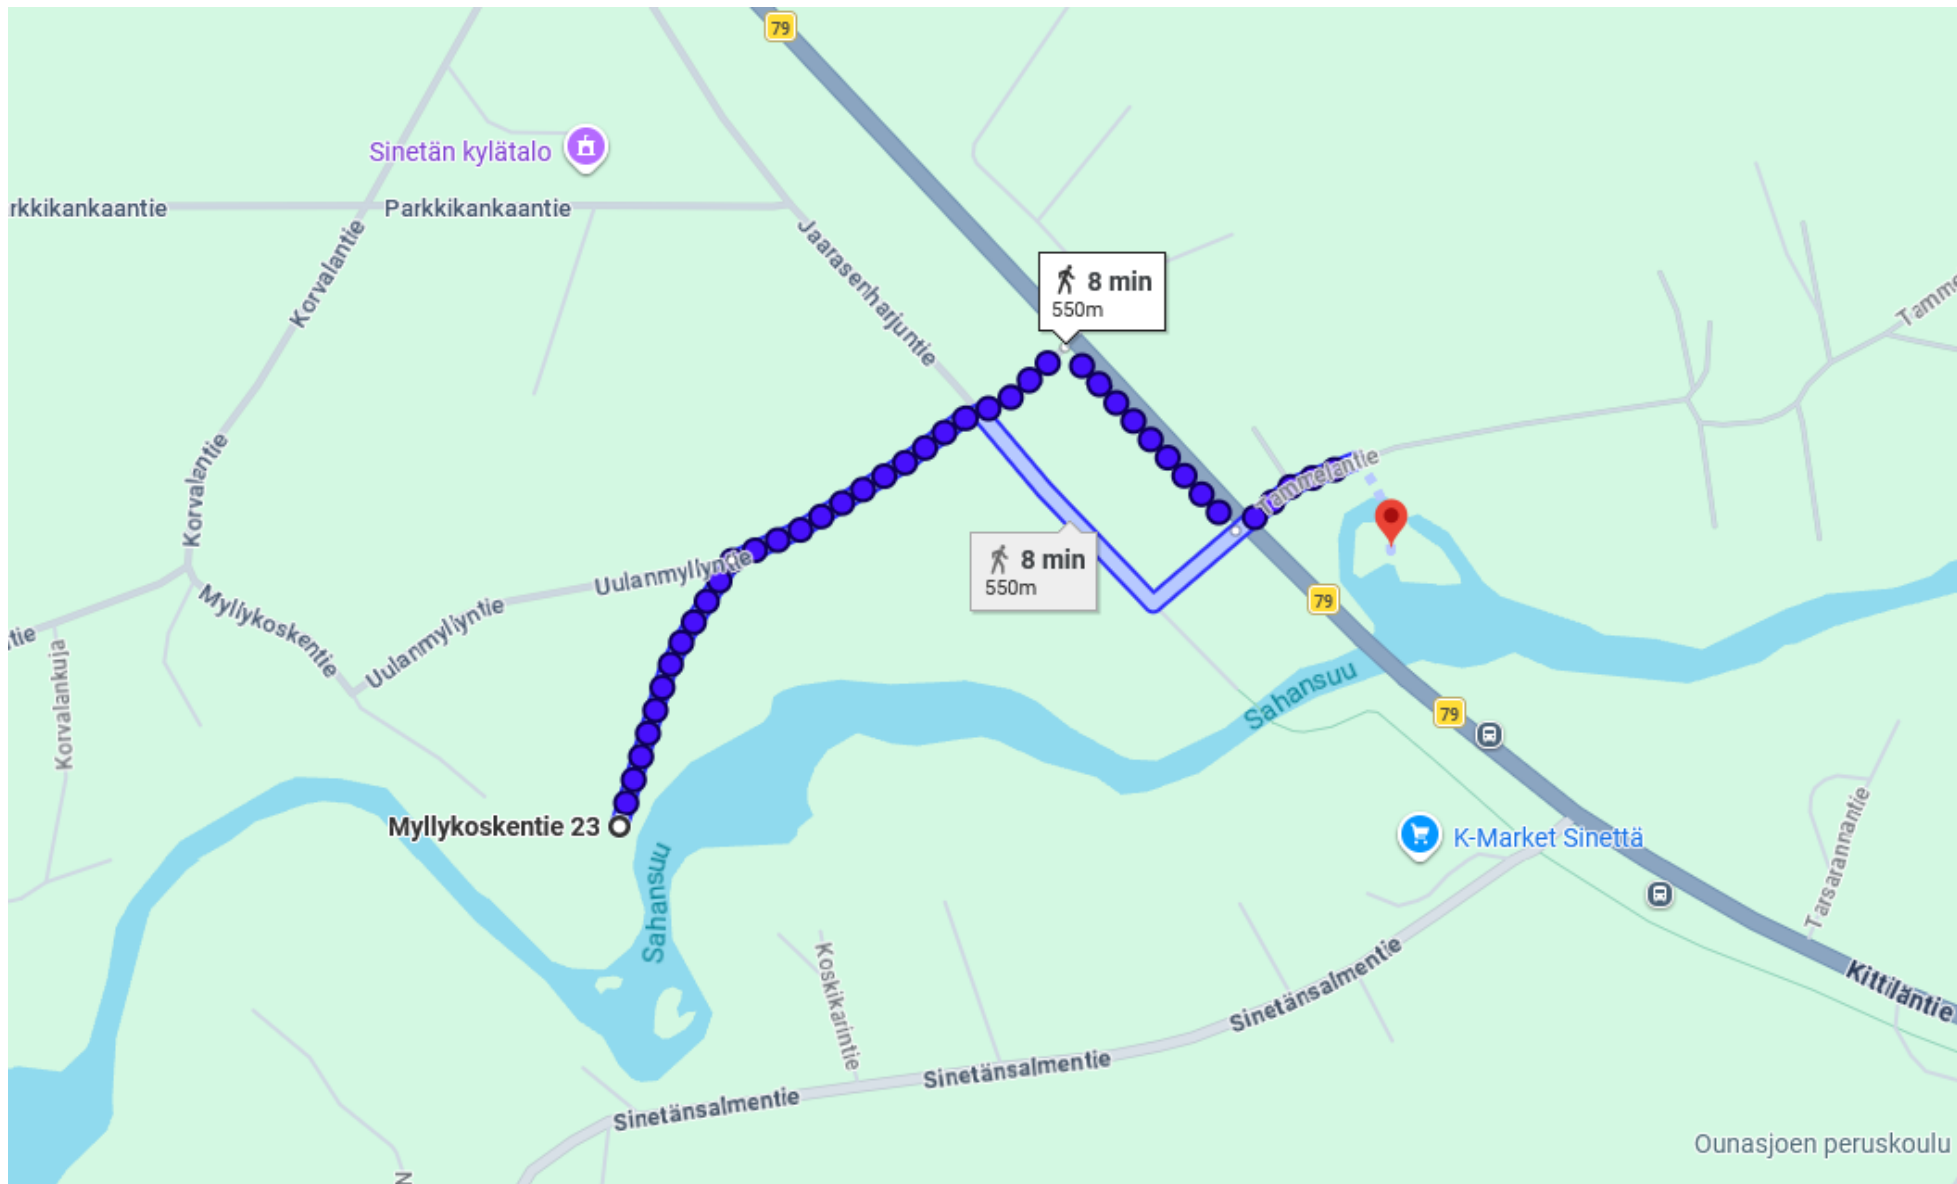

Two locations in the River Sinettäjoki course

Big river: Sinettä beach

- Sinettä swimming site
 - Laavu (open shelter & campfire option)
 - Toilet facilities in a nearby shop (350 m)
- ADCP measurements
 - RS5
 - RiverPro
- Drone measurements + radar
- Surface velocimetry
- Others?

Sinettä locations
